Ballingarry A.F.C Policy on Player Accident Insurance/Medical Bills Refunds

1. The club is not obliged to have player accident insurance but will review on a season-by-season basis based on affordability.
2. The club nor its insurer provide loss of earnings cover and we strongly advise that all players put in place measures to cover themselves for loss of earnings in the event of injury.
3. Only current paid members qualify for medical refunds of any type from the club.
4. 50% Physiotherapy bills are refunded by the club once receipts are provided. The club may from time to time recommend a preferred physiotherapist that we may have an arrangement in relation charge per visit. Please request details from your team manager.
5. Hospital outpatient bills are refunded by the club.
6. The injured player bears the cost of the Insurance policy excess.
7. Players should report their injury to the team manager who will in turn inform the club secretary.
8. The club secretary must inform the insurer of the injury.
9. Copy of player insurance policy (if in place) is available on request from the club secretary.
10. The club secretary will provide the necessary documents to the injured player to pursue their injury claim with the insurer.

Club management committee.
